#### **Company Description:**

Rocky Mountain Ventures Company rapidly delivers innovative and differentiated products into focused markets using proven technologies and specialized channels of distribution. We are an intentional, values-based organization. Whether at a personal, professional, or institutional level, the following values are our guide and foundation around which we make organizational decisions. The Values, the DNA, of Rocky Mountain Ventures are captured in C • I • C • I • C: Courage, Integrity, Collaboration, Innovation, and Care. The Flip-Pal<sup>™</sup> mobile scanner is our first product.

#### **Flip-Pal<sup>™</sup> mobile scanner:**

For Memory Keepers who want to conveniently and reliably scan photos, images in books and magazines, and works of art so that they can be stored digitally, then shared with family and friends for under \$150. The patented flip-and-scan technology allows you to scan photos safely while still in the album or frame. Unlike alternative solutions that don't have the combination of mobility, accuracy, versatility, and keeping the original safe, the Flip-Pal<sup>™</sup> mobile scanner is compact, simple to operate, has high resolution, quick scan time, battery power, onboard memory, and cordless - no computer required.

#### **CEO/Inventor:**

Gordon Nuttall is our Rocky Mountain Ventures Company CEO and inventor of the Flip-Pal<sup>™</sup> mobile scanner. Gordon has founded three other small businesses and two non-profits. His successes include leadership positions in digital cameras, desktop scanners, consumer products software, multi-function peripherals, fax, and personal mass storage. He has been awarded four patents and has two patents pending.

#### **In The News:**

The **Flip-Pal<sup>™</sup> mobile scanner** was selected by CHA's panel of media judges as a product to be included at the 2010 CHA Innovations Media Event, July 27, 2010.

Rocky Mountain Ventures Company was awarded the Consumer Product of the Year award from the Colorado Inventor Showcase on November 2, 2009 in recognition of exceptional ingenuity, creative genius, and product development skills. The winners were chosen by a cast of over sixty celebrity judges representing the media, venture capital, high profile business, and academia. Entries were evaluated based on their innovation, novelty, and value to society.
